

Tips and Tricks for Use of 949S TLC® Foot Splint

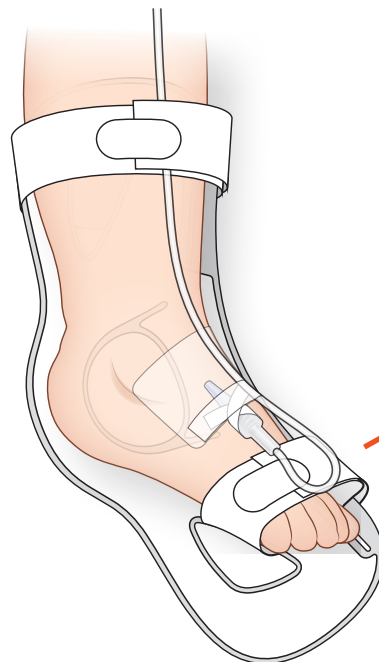

Note that each slot has 2 positions.

Orient the splint as it will fit the foot.

If the strap is not already in the top position at each slot, *move the strap to the top position before proceeding.*

When applying the toe strap, be sure to insert the strap through the opening in the splint near the toe.

Do not wrap the strap around the outer edge of the splint at the toe.

Correct final strap application at toe
